

60cm T5 LED tube light

Long service life

No need of starter or rectifier / ballast

No flicker, protect vision while use in children rooms

High brightness, low power consumption

Built in 48 LED 2835 SMD. Save energy, no pollution, instant start on, no UV radiation

No mercury or other hazardous materials

This LED bulb at 9 watts with a brightness of 850 lumens can replace a 25W watt bulb

Applications:

Used for Public lighting Municipal lighting Industrial Facilities lighting

Schools Hospitals Corridor Commercial Buildings Factories

Restaurants Hotels Supermarkets Bakeries Culture and Entertainment

Home lighting Decor, Living Room Bedroom etc.

Advertising Exhibition Performance Decoration

Specifications:

Material: High quality Aluminum bracket and PC lens lampshade

Power: 9W

Luminous flux: 850LM

Tube type: T5

Material: aluminum + PC engineering plastics

LED type: SMD 2835

LED quantity: 48 x Light emitting diodes

Lighting colour: white

Colour temperature: 6500K

Voltage: DC12V

Dimensions (L x W x H): 60 (With three wire plug) x 2.2 x 2.6cm

## T5 Installation
